

Navigate & Connect reduces medical costs by *matching members to the right care*

Navigate & Connect combines a cross disciplinary team of compassionate care navigators and clinical case managers with an advanced technology platform. It delivers an end-to-end solution that connects members to high-quality behavioral health care across the entire acuity spectrum.

Members who were directly scheduled and connected to care with Navigate & Connect had significant cost savings compared to members who navigated and found care on their own. For the almost 3,000 members connected to their matched provider, a health plan had an **estimated annual cost savings of \$8M**.

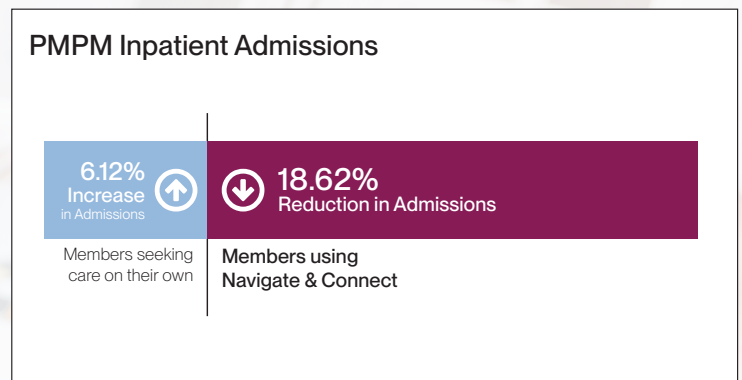

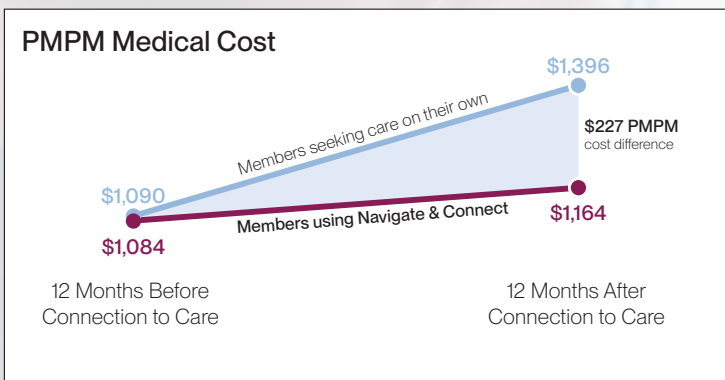

Navigate & Connect achieved validation for savings from the Validation Institute.
